Dose Optimization Program

Dose optimization is designed to increase member’s adherence with drug therapies by replacing multiple doses of a lower strength with a single dose of a higher strength medication. This program targets claims for medications that are intended to be dosed once daily. If a prescribing provider feels that multiple dosing is medically necessary, then the prescriber is directed to submit a written prior authorization for requesting multiple doses of lower strength medication. If you have any questions regarding the Dose Optimization program, please contact the WellPoint NextRx (NextRx) Prior Authorization Center at **1-800-470-0933**. Thank you.

Drug Name	Strength	Drug Class	Daily Dose Limit
Abilify	1mg/1ml solution	Antipsychotic agents	30ml per day
Abilify	10mg	Antipsychotic agents	1 tablet
Abilify	15mg	Antipsychotic agents	1 tablet
Abilify	2mg	Antipsychotic agents	1 tablet
Abilify	20mg	Antipsychotic agents	2 tablets
